EVERGREENS— For Year-Round Beauty

Evergreens give what no other plants can give—twelve months of service and beauty. During the summer their varying forms and colors add interest to any planting and they are the most attractive part of a planting in winter. Their use in the foundation planting and in screens and as specimens has increased until now no landscape seems complete without some form of evergreen. Where space is limited, types of evergreens which can easily be restricted by shearing are available.

Prices include digging evergreens with ball and burlap.

DUNDEE JUNIPER (Upright)—

This outstanding Juniper is upright growing, is bluish-gray in the spring and summer and changes to a plum-like color in fall and winter. Without doubt the most satisfactory of all the upright Junipers. 2½-3 ft., \$12.50.

WELCHI JUNIPER (Upright)—

A very compact, narrow, upright grower. Foliage has an attractive blue-green color. The growth is verticle. Stands trimming very well. 2½-3 ft., \$12.50.

ARBORVITAE

PYRAMIDAL ARBORVITAE—

The most compact and erect of the species, forming a solid pyramid of green that retains its slender shape without shearing. However, it may be made more compact and kept at any desired height by shearing. Useful for entrance and corner plantings. 2-2½ ft., \$6.00; 2½-3 ft., \$7.00; 3-3½ ft., \$8.00; 3½-4 ft., \$9.50; 4-5 ft., \$11.50.

SIBERIAN ARBORVITAE—

A compact, dense, bushy plant. Conical in outline. Foliage a rich dark almost bluish green. The hardiest of the Arborvitae and with distinctive size, form and foliage texture fills a place in the landscape that no other evergreen does. 15-18 inch, \$7.50; 18-24 inch, \$9.00; 24-30 inch, \$11.00.

GLOBE ARBORVITAE—

A dwarf, bushy evergreen that naturally forms itself into a ball-like form. Bushy and compact. Keeps its shape without trimming. Splendid for foundation plantings. 15-18 inch, \$6.00; 18-24 inch, \$7.00; 24-30 inch, \$8.00.

AMERICAN DARK GREEN—

A very dark green, compact American Arborvitae. Color holds well throughout the year. Can be sheared and will stand partial shade. Grows bushy at the bottom and tapers toward the top. 18-24 inch, \$5.00; 24-30 inch, \$6.00; 2½-3 ft., \$7.00; 3-4 ft., \$8.00.

CASH AND CARRY

We are always glad to have our customers come to the nursery and make their own selections. It does not usually take long to assemble your order and we can pack most any ordinary order so you can carry it in your car.

We make frequent deliveries to nearby towns—every day to Rochester—and can usually arrange to deliver any order that you cannot carry with you.

INVITATION TO NEW HOME OWNERS

We invite you to come to the nursery and select your needs. Our many years (over 60) experience is at your service in helping you with your planting problems. You may ask questions about the care, growth, location of planting and other matters pertaining to the varieties in which you are interested and they will be answered by men who have had years of experience in handling plants and trees.

JUNIPERS

KOSTER JUNIPER—

Low spreading variety with arching branches. Bluish-green. Very hardy. 15-18 inch, \$6.00; 18-24 inch, \$7.50.

SAVIN JUNIPER—

Another of the most popular low foundation evergreens. More compact and a richer green than the Pfitzers. While growing in an upright spreading, horizontal manner the tips are more heavily branched so that the plant seems more compact and without the horizontal tip effect achieved by the Pfitzer. Very hardy. 15-18 inch, \$6.00; 18-24 inch, \$7.50; 24-30 inch, \$8.50.

ANDORRA JUNIPER—

A low growing spreading dwarf evergreen of real merit. Its rich silvery green of summer turns a beautiful purplish bronze in fall. 15-18 inch, \$6.00; 18-24 inch, \$7.50.

PFITZER JUNIPER—

A graceful, broad, low evergreen with sweeping fronds of grayish or bluish-green foliage. The strong tips give a definite horizontal line to its effect. Very hardy, standing full sun and also does well in semi-shaded locations. 15-18 inch, \$6.00; 18-24 inch, \$7.50; 24-30 inch, \$8.50.

HETZI JUNIPER—

A new variety of the spreading type. Very graceful appearance with a bluish cast on the new growth. 15-18 inch, \$6.00; 18-24 inch, \$7.50; 24-30 inch, \$8.50.

MUGHO PINE

Very popular compact and dwarf-growing evergreen. Unexcelled for planting about the foundation lines. In the spring the new growth resembles miniature candles at the end of each branch. 15-18 inch spread, \$8.50; 18-24 inch spread, \$9.50; 24-30 inch spread, \$11.50.

YEW

SPREADING YEW—

Usually grows about as tall as broad and does best if grown where it is not exposed to full sunlight. Foliage is dark, shiny green. 12-15 inch, \$8.00; 15-18 inch, \$10.00; 18-24 inch, \$12.00.

UPRIGHT YEW—

The upright, pyramidal form of this variety. A compact Yew of dark green foliage, that does best if grown where it is not exposed to full sunlight. 15-18 inch, \$7.50; 18-24 inch, \$12.00.

BLACK HILLS SPRUCE

One of the hardiest and finest of all spruces symmetrical, compact and bushy in growth. The foliage varying from a green to a bluish-green tint makes the trees always striking for their bright, fresh color. One of the finest spruces for landscape purposes. 18-24 inch, \$5.00; 2-3 ft., \$8.00; 3-4 ft., \$11.00.

COLORADO BLUE SPRUCE—

Selected for the blue color and perfect shape.

Climbing Vines

CLEMATIS, JACKMANI—

Has masses of large purple flowers. Very popular for planting on a trellis. A summer bloomer, long lasting. Potted plants, that will bloom the first season, \$1.50 each.

CLEMATIS, HENRYI—

Unusually large white flowers in June. Potted plants, \$1.50.

CLEMATIS, MARKHAM—

Similar to Jackmani, except it has large red flowers. Potted plants, \$1.50.

BITTERSWEET (ALL FRUITING)—

A hardy vine which has glossy green leaves. Bears yellow flowers. In fall there are red-orange berries. Popular for cutting and hanging in the home. 2 year, \$1.25.

BOSTON IVY—

Foliage is red and gold in the autumn; bright glossy green in summer. Will cling to any surface such as brick, stone, concrete or wood without support. 2 year, \$1.25.

GOLDFLAME HONEYSUCKLE—

Has flame red trumpet-shaped blossoms lasting all summer. It is strong and grows rapidly. 2 year, \$1.25.

For your convenience we will be open during the spring planting season on Sunday afternoons from 1:00 p.m. to 5:00 p.m.

PLEASE DO NOT EXPECT DIGGING DONE ON SUNDAY

Shade and Ornamental Trees

To add completeness to the home planting, the shade tree is an absolute necessity. Whether it is chosen for its dense shade, its flower or fruit, its distinctive foliage or its colorful bark, each in its own way will add immeasurably to the grace and beauty of your home grounds.

MAPLE, Crimson King—

(Plant Patent No. 735.) This beautiful ornamental is a form of the Schwedler Maple that was selected in Europe for its brilliant crimson leaves. The color is retained throughout the summer. 6-7 ft. whips, \$6.50; 7-8 ft., \$8.00.

MAPLE, Silver or Soft—

A good appearance and rapid growth make this tree very popular where an immediate effect is required. 6-8 ft., \$3.00; 8-10 ft., \$4.50; 1-1½ inch caliper, \$6.50; 1½-2 inch caliper, \$9.00; 2-2½ inch caliper, \$12.50.

MAPLE COLUMNAR NORWAY—

Compact narrow form for accent and formal effect. Particularly useful for shallow lawn-strips. 10-12 ft., \$9.00.

SCHWEDLER'S MAPLE—

One of our most beautiful and colorful shade trees, famed for its beautiful red foliage in spring. As the leaves open up in the spring they take on a bright purplish or crimson color which later turns to a deep rich green frequently retaining a dark purplish tinge in the veining. 8-10 ft., \$11.00.

MAPLE NORWAY—

A handsome lawn and shade tree forming a perfect rounded head of broad, dark green leaves. Not as tall growing as the other maples. 1¼-1½ inch, \$10.00.

MAPLE, Hard or Sugar—

This is one of the most beautiful of shade or boulevard trees. It is stately in all seasons, but truly gorgeous in fall when its dense leaves are brilliant yellow, orange and scarlet. For beauty and permanence Hard Maple cannot be surpassed. 8-10 ft., \$8.00; 1-1¼ inch, \$10.00; 1¼-1½ inch, \$12.50; 1½-1¾ inch, \$15.00.

HACKBERRY—

One of the fine trees for shade or boulevard planting. It grows quite rapidly, to a uniform shape. It is extremely hardy and develops strong crotches. An interesting tree as a specimen or in a background planting. 6-8 ft., \$3.00; 8-10 ft., \$4.50; 1-1½ inch caliper, \$6.50.

MOUNTAIN ASH

The combination of foliage and clustered fruits make this a very beautiful lawn tree. Bright red berries, white flowers. Used as specimen on the lawn or as an accent in the border. Grows 30 feet high. 5-6 ft., \$3.00; 6-8 ft., \$5.00; 8-10 ft., \$6.00; 1-1½ inch caliper, \$7.50; 1½-2 inch, \$9.00.

MARSHALL SEEDLESS GREEN ASH—

A new handsome, shapely tree with extremely dark green, glossy foliage. Entirely free of seed, and has few insect enemies. Most outstanding. 6-7 ft., \$6.00.

GREEN ASH—

The hardiest of all the native trees. Useful for parks and streets, or for lawn planting. Shapely and handsome. 6-8 ft., \$3.00; 8-10 ft., \$4.50; 1-1½ inch, \$6.50; 1½-2 inch caliper, \$9.00; 2-2½ inch caliper, \$12.00.

NIOBE WEeping WILLOW—

The golden Weeping Willow, the most beautiful in that species. Splendid as a lawn tree, for planting near pools or along the banks of streams. 6-8 ft., \$3.75.

BIRCH, Cut-Leaf Weeping—

The leaves are delicately cut, the bark a brownish green at first, gradually turning to a pure glistening white. 5-6 ft., \$5.00; 6-8 ft., \$8.00; 8-10 ft., \$9.00.

WHITE BIRCH—

A beautiful, graceful, upright growing tree of medium size, famed for its striking white bark. Effective when planted singly or in groups. Clusters of three or four planted in one clump will give the most desirable and most naturalistic effect. 6-8 ft., \$4.50; 3 for \$13.00.

Clump Birch of 2 or more stems, 6-7 ft., \$9.50.

LOMBARDY POPLAR—

Tall, stately landscape tree for accent points, quick screens, backgrounds and driveways. Very picturesque and very useful. Has glossy leaves that shimmer in the sunlight. Branches grow close to trunk and upright to form a tall, slim column. Fast growing and hardy.

	each	5 or more each
5-6 ft.	\$1.50	\$1.25
6-8 ft.	1.75	1.50

NORWAY POPLAR—

The most rapid growing tree you can plant. Use this for windbreak or for a quick temporary shade tree. 6-8 ft., \$3.00; 8-10 ft., \$4.50; 1½-2 inch caliper, \$6.00.

SUNBURST LOCUST—

(Plant Patent No. 1313.) A new tree with golden foliage on the branch tips. A broad pyramidal shape. The tree produces no seeds or thorns. 7-8 ft., \$8.00.

SKYLINE LOCUST—

(Plant Patent No. 1619.) New and unusual variety with sturdy trunk and shapely crown without being staked or specially trimmed. Branches are uniformly spaced and arranged, resulting in a well-filled tree. Leaves of Skyline are dark green and of a heavy, leathery texture. 7-8 ft., \$8.00.

Hedges—Beautify As They Serve

ALPINE CURRANT

Absolutely hardy, free from disease and insect pests, bright green foliage which remains on the plants until late in fall. Grows very bushy and is best variety for ornamental hedge from one to three feet in height. Plant sixteen inches apart.

	10	25
12-15 inch	\$ 7.00	\$14.00
15-18 inch	10.00	20.00

THUNBERG'S BARBERRY

A graceful shrub becoming very beautiful in fall with its yellow and red leaves and red berries. Its dense growth and sharp briars make it a good hedge plant for protection from trespassers. Plant 12 to 18 inches apart.

	10	25
12-18 inch transplants	\$3.00	\$6.00

RED-LEAVED BARBERRY

A valuable shrub to use for color variety. Foliage is red all season with red berries in fall. Has close twiggy banches. Plant 12 to 15 inches apart.

	10	25
12-18 inch transplants	\$4.00	\$8.00

DWARF HONEYSUCKLE

A good dwarf, dense growing hedge with numerous stout branches. Plant 12 to 18 inches apart.

	10	25
12-15 inch transplants	\$5.00	\$11.00

DWARF NINEBARK

Has small white flowers in May and June with bright green leaves. Attractive red seed pods follow the flowers. The leaves take on a brilliant color in the fall. Can be trimmed to any size below 5 feet. Plant 2 feet apart.

	10	25
18-24 inch	\$6.50	\$15.00

SPIREA VAN HOUTTE

Often used as a sheared hedge but is especially adapted for use as a screen or snowbreak; planting them from 2 to 4 feet apart and allowing them to grow to the natural height of six to seven feet.

	25
2-3 ft.	\$14.00
3-4 ft.	19.00

HONEYSUCKLE

ZABELI RED—

Sometimes used as sheared hedge, 4 to 6 feet high, but is unexcelled for a tall screen or border, growing 10 to 15 feet high.

	25
18-24 inch hedging	\$10.00

	25
2-3 ft.	\$18.75
3-4 ft.	25.00

POLISH PRIVET

The hardiest Privet grown in our area. A compact growing Privet. Excellent for hedging. Plant 12 inches apart.

	25
2-3 ft., 3 or more stems	\$12.50

REPLACE AGREEMENT

We will resupply once, at one-half price any evergreens (except windbreak), and free of charge any trees or shrubs which fail to grow through the first growing season, provided the plants have received proper care and that payment of the bill has been made when due. All plant failures must be reported by Sept. 1st.
Labor for planting of all replacements is charged for on the same basis as new planting.

CUTTING'S NURSERY is eight miles west of Rochester, on Highway 14.

HARDY PERENNIALS

Perennials are a beautiful aid in adding color to one's garden or yard. A large variety of color and consistency of bloom from spring through fall may be had by using Perennials. No home grounds are now completely planted without a border of these continuously blooming plants.

Perennial Phlox

Field grown plants, 40c each

SUBULATA (CREEPING PHLOX)—

Blooms in May, when whole plant is a vivid mass of lavender-pink. Very bushy. Pink, Red, Blue and White. 40c.

AFRICA—

Brilliant carmine-red with a deep blood-red eye. 40c.

RIJNSTROOM—

Lively shade of rose-pink, very large. 40c.

R. P. STRUTHERS—

Tall. A bright rosy carmine with claret eye. 40c.

MARY LOUISE—

A good grower of medium height with clean foliage. Produces pure glistening snow-white heads of unusually large size, the individual flowers being twice as large as other white varieties. 40c.

FLASH—

Bright crimson-red. Tall midseason beautiful phlox 40c.

BRIDESMAID—

White with crimson eye. 40c.

SHASTA DAISY

ALASKA—

In July and August bears a great profusion of immense, gleaming white blooms, excellent for cutting. 18-24 inch. 40c.

MOUNT SHASTA (Double)—

The pure white flowers are completely double and produce freely from June to October. They are of excellent lasting quality. The stems are about 18 inches high, very stiff, holding the heavy double pure white blooms upright. Excellent for the border as well as for cutting. 50c each.

PYRETHRUM ROSEUM

PAINTED DAISY—

Beautiful daisies of pink and red cover the plant in June. 2 feet. 40c.

CORAL BELLS

Low-growing, tufted, plants which bear a profusion of dainty coral-red flowers on long, slender stems. Blooms nearly all summer. 40c.

GYPSOPHILA

BRISTOL FAIRY—

A double Baby Breath of great vigor, producing large panicles of flowers and blooming more or less continuously all summer, if first blooms are cut. 75c.

ROSY VEIL—

A new dwarf pink double-flowering Gypsophila. Established plants reach a height of 2 feet and bloom in summer and fall. They start blooming 2 weeks earlier than the tall double Gypsophila and continue later in the season. Fit perfectly in the garden and are fine for cutting. 75c.

COREOPSIS

Large brilliant yellow flowers. Stems long, graceful. Blooms all summer. 2 feet. 40c.

COLUMBINE

Delicate flowers in many colors. Long spurred. June and July. 24 inches. 40c.

BLEEDING HEART

DIELYTRA SPECTABILIS—

Blooms May to June. Height 3 feet. Flowers pink and white, heart-shaped. 75c.

D. EXIMIA—

Plumy Bleeding Heart. Finely cut, fern-like foliage with showy rose-colored flowers. Blooms all summer. Stands partial shade. Height, 18 inches. 75c.

PLATYCODON

BALLOON FLOWER—

Large, showy, balloon-shaped buds which open to star-shaped flowers. June to September. 40c.

FALL BLOOMING ASTERS

ADORABLE—

Best true pink hardy aster. Habit and growth are similar to Harrington Pink but color is slightly deeper salmon pink. 45c.

MOUNT EVEREST—

The finest and best white aster. It forms very tall, well-shaped pointed pyramids with an abundance of lateral growths, which flower right down to the ground. Makes wonderful bouquets as cut flowers. 45c.

BLUE GEM—

Large, lovely flowers of blue with a yellow center, best blue in cultivation. September until frost. 3 to 4 feet. 45c.

LILIES

REGAL—

The large, trumpet-shaped flowers are snowy white, with a pure yellow center, while the exterior of the petals is slightly tinged pink. It is a strong grower, attaining the height of three or four feet. The flowers are beautiful, possessing a delightful fragrance. **Large bulbs, 30c.**

ELEGANS—

The fiery-red blooms of this lily are borne in large clusters on medium height, stocky stems. Blooms profusely in June and July and is very hardy. **Large blooming size bulbs, 30c each.**

SINGLE TIGER—

Five feet. Produces an abundance of orange-scarlet flowers in August. Very hardy and vigorous. **Large bulbs, 30c each.**

CORAL LILY—

Two feet. The brilliant coral-red flowers are borne in clusters of 5-15 on slender stems. Fine for rock garden or border. **Bulbs, 25c each.**

Peonies

A few choice plants of Peonies will fill your garden with color and fragrance from late May through June. Even the rose cannot excel in beauty and charm the flowers of the modern Peony. Here, under our northern conditions, it is peer of all flowers in combining so well the qualities of absolute hardiness, great color variation, size, beauty and fragrance of bloom.

BARONESS SCHROEDER—

Light pink tint, opening to pure white. Globe shaped. Late. **\$1.00.**

EDULIS SUPERBA—

Bright mauve pink. Early. **\$1.00.**

FELIX CROUSE—

Brilliant red. Large globular flowers. Fragrant. **\$1.00.**

FESTIVA MAXIMA—

Early and very large. White, with center flaked crimson. Splendid in every way. **\$1.00.**

KARL ROSEFIELD—

Rich, glowing crimson. Immense, solid flower. Superb variety. Midseason. **\$1.00.**

SARAH BERNHARDT—

Apple blossom pink, silver-tipped. Mid-season. Fragrance. **\$1.00.**

DELPHINIUM

BELLADONNA—

The freest and most continuous blooming of all, never being out of flowers from the end of June until cut down by hard frost. The clear turquoise-blue of its flowers is not equalled for delicacy and beauty by any other flower. **40c.**

D. BELLAMOSA—

A free-blooming, dark blue type. **40c.**

BLACKMORE—LANGDON STRAIN—

A famous English strain. All the clear shades of blue, with bees of contrasting colors. **40c.**

GAILLARDIA

Gay blooms with reddish-brown centers and yellow, daisy-like petals ringed with red. June to November. 18 to 24 inches. Fine for cutting. **40c.**

IRIS

BLUE RHYTHM—

Cornflower blue.

GOLDEN MAJESTY—

Clear deep yellow.

WAR EAGLE—

Bronzed red.

70c each

FERNS

OSTRICH PLUME FERNS—

Fine for that shady corner. **30c.**

Gladiolus

The gladiolus is one of the easiest flowers to grow and is doubly valuable for the field show of bloom and for its cut flowers. Bulbs should be planted four inches deep and may be planted any time from April to June. Our list of varieties is not long but it contains the very best of the various colors.

LYTHRUM

PURPLE LOOSESTRIFE MORDENA—

This is a new Lythrum brought out by the Canadian Experimental Farm at Morden, Manitoba. We think it the best of all the Lythrum and a great improvement over the old types. Long upright growing stems just covered their length with little deep bright rose-pink flowers. This is a good one. Showy plants for moist, shady borders, and watersides. A very useful cut flower blooms nearly all summer. **Bloom-size plants, 50c.**

GLEAM—

Red. **Blooming size plants, 50c.**

HARDY BUSH ROSES

Strong 2 yr. plants of the following plants, \$1.40.

F. J. GROOTENDORST—

Clusters of small, bright red Roses on a hardy compact, bushy shrub. Blooms almost continually.

AGNES—

Large, double, yellow, fragrant blooms. Most useful for background planting in shrub border or along foundation.

HANSA—

Large double, deep red Rose of pleasing fragrance. Bush is very hardy and is a splendid ornamental shrub.

Strong 2 yr. plants of the above varieties, \$1.40.

CLIMBING ROSES

EVERBLOOMING BLAZE—

New improved strain of the popular climber, blooming throughout the summer season until frost. Brilliant 2 to 3 inch, cupped, scarlet-red flowers. 2 yr. plants, \$1.50.

GOLD RUSH—

Everblooming yellow climber. 2 yr., \$1.50.

HYBRID TEA ROSES

Prices of Hybrid Tea and Floribunda Roses—Started and Growing in Cloverset Pots, Sure to Bloom This Season—\$2.00 each.

CHARLOTTE ARMSTRONG—

Blood-red buds open to spectrum-red.

CRIMSON GLORY—

Well known deep velvety crimson of merit.

KARL HERBST—

Double, dark velvety, scarlet.

PEACE—

Yellow, two tone etched pink.

PICTURE—

Double, rose-pink with undertone of salmon.

LOWELL THOMAS—

Yellow, unfading color.

PRES. HOOVER—

Bi-color. Yellow with pink and flame tints.

REX ANDERSON—

Perfect form, fully double, ivory-white.

FLORIBUNDA ROSES

GARNETTE—

New variety of petite red sweetheart roses.

EUTIN—

Large clusters, very double deep red.

Above Potted Plants \$2.00 each

Peat For Lawns and Gardens

We have Peat Humus in the granulated form at 75c a bushel.

Hardy Ornamental Shrubs

ALPINE CURRANT

One of the best shrubs for very shady locations. A dwarf shrub of dense growth with fine dark green leaves. Unexcelled for a low hedge. 12-15 inch, 75c; 15-18 inch, \$1.00.

POTENTILLA

GOLDDROP—

A compact, dwarf shrub, suitable for the foundation planting or in front of shrub border. Blooms all summer. Flowers are a bright yellow. Potted, \$2.00.

PINK FLOWERING ALMOND

A very double pink flowering shrub, in bloom before leaves appear in spring. Growth dwarf and bushy, compact, with slender branches. Fine plants to use in grouping or for lawn. 18-24 inch, \$1.25.

FORSYTHIA OVATA

Has ascending branches which arch gracefully. Flowers are primrose-yellow, making a beautiful sight in April before the leaves are out. 2-3 ft., \$1.50.

WEIGELA CARDINAL SHRUB

Hardier and more vigorous than all other red Weigelas; makes a shapely, thrifty plant with attractive rich green foliage. Color of bloom is a soft ruby-red shading to garnet-crimson. Attains a height of 6 to 7 feet at maturity; requires very little pruning because it flowers well from old wood. 2-3 ft., \$2.00.

JAPANESE FLOWERING QUINCE

An early blooming shrub, covered with clusters of orange-scarlet flowers, growing about three to four feet high. Bushy, dense dark shiny foliage. Potted, \$2.00.

EUONYMUS

WINGED-BARK BURNING BUSH—

Bright yellow flowers in spring, followed by clusters of brilliant red berries, which hang until mid-winter. Leaves turn to beautiful crimson-scarlet in the fall. 18-24 inch, \$2.50; 2-3 ft., \$3.00.

DWARF BURNING BUSH—

The same qualities as the above shrub, except a dwarf growing shrub, just the thing for the new rambler homes and under windows to add color to the foundation planting. Thrives in shade. 15-18 inch, \$2.50.

BARBERRY

GREEN—

This low spreading shrub is useful in foundation plantings, borders and hedges. The bright green leaves take on a splendid autumn coloring of gold and scarlet. Twiggy branches are set with small, sharp thorns. 15-18 inch, \$1.00; 18-24 inch, \$1.25.

RED LEAVED—

Has rich, bright red foliage in spring that remains so during the summer if in full sun. Is unusually beautiful in fall with bronze and yellow of the foliage and abundant scarlet berries that persist through the winter. 15-18 inch, \$1.00; 18-24 inch, \$1.25.

SPIREA

ANTHONY WATERER—

Brilliant rosy carmine flowers. Blooms all summer. Always blooms the first season. Is very useful for planting in front of larger shrubs. Grows 2 feet high. 15-18 inch, \$1.00; 18-24 inch, \$1.25.

SPIREA FROEBELI—

Similar to Anthony Waterer, but a foot taller, with broader and darker leaves, which are a beautiful salmony bronze red in spring, reverting to similar shade in fall. Has reddish pink flowers in dense corymbs during July and August. 18-24 inch, \$1.00; 24-30 inch, \$1.25.

SPIREA VAN HOUTTE

(Bridal Wreath)

A beautiful shrub either for single lawn specimens or in groups. Grows 5 to 6 feet high.

	Each	12
2-3 ft., 3 year	\$.75	\$ 7.50
3-4 ft., 3 or 4 year	1.00	10.00
Large landscape size ..	1.25	12.50

SPIREA SORBIFOLIA—

A very shade-tolerant shrub with fern-like leaves. White flowers appearing in large upright clusters in June-July. Does well on the north side of buildings attaining a height of 4 to 5 feet. 2-3 ft., \$1.25.

SNOWBERRY

A valuable shrub in group plantings. Conspicuous because of the masses of snow white berries produced in September and remaining on the bushes into the winter months. Height 4 to 5 feet. Pink flowers in July. 18-24 inch, 85c; 2-3 ft., \$1.00.

ARROWWOOD

8-10 feet. An attractive shrub with peculiar dentate leaves, bright green foliage turning to rich purple and red in the fall. White flowers followed by small blue-black berries that are relished by the birds. Does well in shade. 2-3 ft., \$1.50.

HIGH BUSH CRANBERRY

One of the best shrubs for ornamental planting. Extremely hardy. The white flowers of early summer are followed by brilliant red berries that resemble cranberries, and remain on all winter. Useful for jelly. Leaves are large, with a vivid fall coloration. 2-3 ft., \$1.75.

ZABELI HONEYSUCKLE

This vigorous, upright Honeysuckle has attractive red flowers, followed by bright red berries in late summer to autumn. It is hardy and does well in shade. It is a rapid grower and is unexcelled for a tall screen or as a snowbreak. Grows quite rapidly, to 8 or 10 feet in height.

BUSHY THREE YEAR PLANTS:

	Each	12	25
2-3 ft.	\$1.00	\$11.00	\$18.75
3-4 ft.	1.25	14.00	25.00

NEW DWARF HONEYSUCKLE

Here is what you have been looking for—a new true-dwarf shrub for landscaping your ranch style home. Very bushy and compact with small yellow flowers and red berries. 15-18 inch, 75c; 18-24 inch, \$1.00; 2-3 ft., \$1.25.

DOGWOOD

SIBERIAN RED TWIGGED—

Good for border planting where the smooth slender bright red branches make a pleasing contrast with snow and evergreens. Small white blooms early in summer, succeeded by a fall crop of ornamental berries. 3-4 ft., \$1.75.

VARIEGATED DOGWOOD—

The green leaves are striped and margined with white. Red colored bark. An unusual plant making a bright spot of color in the shrub group. Potted, \$2.25.

DWARF NINEBARK

One of the newer shrubs and is very desirable as a low massing shrub and makes a hardy dense hedge of low to medium height. 2-3 ft., \$1.00; 3-4 ft., \$1.50.

RUSSIAN OLIVE

10 to 12 feet. Its foliage is of a remarkable silver hue, showing up in striking contrast to the green of other shrubs and trees. Has fragrant yellow flowers. Very hardy. 2-3 ft., 75c; 3-4 ft., \$1.00; 4-5 ft., \$1.50.

CORALBERRY

A low, slender branching shrub valuable for planting in shady places and for covering steep slopes. Its beauty lies in the masses of coral berries that ripen in the fall and usually adhere all winter. 18-24 inch, 85c; 2-3 ft., \$1.00.

CISTENA CHERRY

PURPLE LEAVED SANDCHERRY—

Grows 3 to 4 feet high, spreading about the same. Foliage of rich dark red which makes a valuable contrast in shrub plantings. 2-3 ft., \$2.25; 3-4 ft., \$2.85.

TAMARIX (Hispid)

Fine foliage producing a fernlike effect. Attains a height of 6 to 8 feet. Pink flowers in July and August. Potted, \$2.00.

FRENCH PINK PUSSY WILLOW

Popular for use of catkins before leaves come on. 2-3 ft., \$1.25.

COMMON SNOWBALL

Handsome white flowers are produced in great globular clusters. Has long been one of the most popular and showy varieties on our lists. 2-3 ft., \$1.75.

HYDRANGEA

P. G.—

This is the variety which blooms in August, the large cone-shaped heads of bloom being white at first then changing to pink. 2-3 ft. plants that will bloom this year, \$1.50; 3-4 ft., \$2.00.

HILLS OF SNOW—

Large flat clusters of white blooms from June to September. May be used in either border or foundation plantings. Stands shade very well. 18-24 inch, \$1.25.

JUNE BERRY

A very early blooming shrub, growing about four feet high. White flowers are followed by edible blue berries resembling huckleberries which ripen in late June. Birds are very fond of these berries. Potted, \$2.00.

RED BERRIED COTONEASTER

A bushy shrub of rounded form. Carries short still branches. Noted for its red berries. Potted, \$2.00.

SYRINGA OR MOCK ORANGE

MINNESOTA SNOWFLAKE—

An outstanding introduction, every blossom a very double pure white. The shrub is thoroughly hardy, extremely vigorous and long-lived. It is useful for screen, tall border and specimen plantings. 2-3 ft., \$1.50; 3-4 ft., \$2.00.

LEMOINE—

A showy, free blooming variety with slender twiggy and slightly arching branches. Flowers are creamy white, fragrant, smaller size than most of the varieties but because of their profuse blooming habit are most effective at blossom time. 2-3 ft., \$1.50; 3-4 ft., \$2.00.

VIRGINAL—

Flowers are very large with large petals and double crested. Usually borne in clusters of 5 to 7. Sweet scented and long blooming. Will bloom the first season. 2-3 ft., \$1.50.

NEW DWARF MOCK ORANGE

FROSTY MORN MOCK ORANGE—

A dwarf growing Mock Orange with pure white, very double, fragrant flowers blooming in June and July. A hardy shrub attaining only 40 inches in height. Very useful for specimen planting in landscaping your ranch style home. Potted, \$2.00.

GOLDEN MOCK ORANGE—

Bright golden yellow leaves make this dwarf shrub valuable to color shrub groups. Cheerful and attractive all through the summer. 15-18 inch, \$2.00; 18-24 inch, \$2.50.

FLOWERING PLUM

6 to 7 feet. The earliest flowering hardy shrub of deep pink. Double blossoms appear in great profusion before the leaves, completely covering the branches with what appear like pink roses. 3-4 ft., \$2.85; 4-5 ft., \$3.25.

PERSIAN LILAC

A decided improvement over the common Lilac. A shrub with slender, arching branches, attaining a height of 8 to 10 feet. The foliage is small, the flowers bright purple. Blooms in May and June. A much more profuse bloomer than the common and does not sprout from the roots. 2-3 ft., \$1.00; 3-4 ft., \$1.25.

FRENCH LILACS

CHARLES JOLY—

Double, Purple-red. One of the best. Bush medium size and height. 2-3 ft., \$2.50; 3-4 ft., \$3.50.

PRES. CARNOT—

Double, Orchid-pink. Enormous trusses of fully double, blossoms. 2-3 ft., \$2.50.

PRES. LINCOLN—

Single, Light blue. Best known for its many blossoms of true blue. 2-3 ft., \$2.50; 3-4 ft., \$3.50.

MME. CASIMER PERIER—

Double White. Produces fully double, pure white, large trusses. 2-3 ft., \$2.50; 3-4 ft., \$3.50.

LUD. SPAETH—

Single, rich Purple-red. A brilliant intense color that holds up well in sun and lasts a long time. 2-3 ft., \$2.50; 3-4 ft., \$3.50.

K. HAVEMEYER—

Double, Mauve-pink. An outstanding variety of immense, fully double most beautiful mauve-pink trusses. 2-3 ft., \$2.50; 3-4 ft., \$3.50.

FLOWERING CRABS

HOPA—

The most strikingly beautiful and graceful ornamental Crab suited to Northern climates. The buds are a **blood-red**, followed by a mass of fragrant, deep, **rose colored** blossoms. The single flowers appear early and continue long on the tree. The foliage is first a **reddish purple**, then a **bright rich green**. The small, red-fleshed fruit makes delicious jelly. 5-6 ft., \$3.00.

STRATHMORE—

We like Strathmore for its foliage as well as for its habit of growth; which is narrow and upright. The leaves remain reddish all summer and turn strikingly red and scarlet in autumn. The flowers resemble those of Hopa but are somewhat darker. 5-6 ft., \$3.50.

RADIANT—

New introduction of the University of Minnesota. Radiant is an upright, compact, columnar tree, becoming a blaze of bright rose-pink blooms in spring. Small bright red fruit hang on to the tree well. 5-6 ft., \$5.00.

Apples

Prices of Apple Trees

	Each	5	10
5-7 ft.	\$2.15	\$10.00	\$18.50

ORIOLE—

The earliest high quality apple we know. Good for pies, too. For that first apple—crisp, juicy Oriole is it. Very hardy.

DUCHESS—

A good, early, cooking apple. Medium sized, striped with red. Very hardy. Fine for pie and sauce.

BEACON—

A Minnesota bred apple, all-red. Ripens August-September. Useful for eating, dessert, pie, sauce and freezing.

WHITNEY CRAB—

A large, red mild flavored Crab, excellent for eating, canning, and pickles. Perfectly hardy, and is a heavy yielder.

CHESTNUT CRAB—

This large dessert crab (larger than Whitney) has been widely tested and has met general approval because of hardness, productiveness, and excellent quality for eating fresh or for sauce, pickles, and pies.

WEALTHY—

A Minnesota favorite for eating and cooking. Fruit is medium sized and striped red. September-November.

CONNELL RED APPLE—

(Plant Patent No. 1602.) This new apple is an improvement of the famous Fireside. It has the sweet flavor of Delicious, but is a much hardier tree. Fruit is solid bright red color. These big all-red apples ripen late and store exceptionally well. 5-6 ft., \$3.00.

5 ON 1 APPLE—

Five varieties on one apple tree. Beacon, Fireside, Prairie Spy, Wealthy and Yellow Transparent on Whitney tree. 5-6 ft., \$4.35.

MINJON—

The Minnesota Jonathan is an all red apple. Very good for dessert, pie, sauce, baking and freezing.

LAKELAND—

Similar to Wealthy but has longer keeping qualities. Dessert quality is good, and it is excellent for cooking. A regular annual bearer.

McINTOSH—

Produces a solid bright red apple. Fruit ripens in October and keeps well through January.

PRAIRIE SPY—

Large red fruit, useful for dessert, pie, sauce, baking, jelly and freezing. Keeps October-April.

FIRESIDE—

Large apple of red coloring. A high quality, rich flavor. Useful for eating, dessert and salad. November-April.

NORTHWESTERN GREENING—

The most popular green apple. Large in size. Keeps October-April. Useful for pie, sauce and freezing.

MALINDA—

One of the hardest, heaviest bearing, longest keeping apples that can be grown here. The flesh is yellowish-white, firm and juicy.

HARALSON—

The red fruit is medium sized. Very popular, tart, juicy apple for eating and cooking. Especially fine for pies. October-March.

DOLGO CRAB—

A very good jelly crab. Pink and white flowers followed by fiery red fruit. Beautiful either as an ornamental or for fruit. Makes good jelly and pickles.

CENTENNIAL APPLE (CRAB)—

This is a new fruiting crab as well as ornamental. The trees are decorative, shapely, of rather small size, and are hardy, healthy and productive. Flowers are large, white and showy. Fruit is crisp, tender and juicy, pleasant flavor, very good eating quality. 5-6 ft., \$3.00.

DWARF DUCHESS APPLE\$4.00 each
DWARF HARALSON APPLE ..\$4.00 each
DWARF WEALTHY APPLE\$4.00 each

Landscape Service

If your home needs some trees, shrubs and evergreens and you do not know what to plant or how to arrange it, we want you to feel free to ask us to give you the benefit of our many years of experience in planning and planting home grounds. We will be glad to go to your home and assist you with your problems about foundation planting, "outdoor living rooms," and hedges.

We will tell you what you need and you will find that our prices are very reasonable and our stock of the highest quality. This service is free and places you under no obligation.

Plums

UNDERWOOD—

Has large, early fruit on annual bearing tree. Earliest of the large Plums, fruit is an attractive red with splendid quality, small pit.

SUPERIOR—

One of the largest, best Jumbo plums. Tree bears early and is a regular and heavy producer. Fruit is very large, firm fleshed, beautiful red color and delicious eating quality.

PLUM POLLENIZER—

The best Plum Pollenizer for our Minnesota hybrids. Sweet and tasty, it is a valuable addition to the home planting.

Prices of all Plum Trees

5-7 ft.\$2.50 each; 3 for \$7.00

Hardy Pears

PARKER—

Fruit is greenish yellow with an attractive blush. Medium to large size. Fruit ripens in September. Good for eating and canning.

PATTEN—

Bears good fruit which is sweet and of good size. A very productive variety.

Prices of Pear Trees

5-7 ft.\$2.50; 2 for \$4.50

Rhubarb

VALENTINE—

A new, all red stalked variety. Sweet, heavy producer. Good for pie and sauce and especially suitable for freezing. Strong roots, 85c each; 3 for \$2.25.

Asparagus

Plant the roots in deep rich soil, the crowns about four inches below the surface.

Plant 12 roots for each member of the family.

WASHINGTON ASPARAGUS—

	12	25	50	100
One year roots ..\$	.80	\$1.40	\$2.50	\$4.00
Two year roots ..	1.10	2.00	3.50	5.50
Three year roots	1.50	2.75		

Grapes

FREDONIA—

Outstanding early black grape. Similar to Concord. Fruit is large, sweet and of good quality.

BETA—

A vigorous and hardy grape. The blue-black fruit is fine for juice or jelly. It is an early bearer.

Prices of Fredonia and Beta Grapes, 2 yr., 50c; 6 for \$2.50.

Currants

RED LAKE—

A new Minnesota introduction. Large red fruit borne in long bunches. Ripens in early mid-season. 2 yr. plants, 50c; 3 for \$1.30.

Gooseberries

PIXWELL—

A new, absolutely hardy introduction. Large, oval, pink-colored berries. A large bush that produces heavily. 2 yr. plants, \$1.00; 3 for \$2.70.

Pie Cherries

NORTHSTAR and METEOR A Perfect Pair

METEOR CHERRY—

Minnesota's new pie cherry, introduced by the University of Minnesota Fruit Breeding Farm. Tree is a strong vigorous upright grower, unusually large leaves which are resistant to leaf spot. The fruit is large to very large. Color clear light red, skin thin. The flavor is very good. Stone small and free.

NORTHSTAR CHERRY—

A cross between Serbian pie cherry and the regular English Morella which makes for one of the hardiest cherries, as well as a relatively small tree. Fruit is dark red at maturity, skin is medium tender, flesh is juicy, tender and meaty. The stone is small and free.

Prices of Northstar and Meteor Cherries—
4-5 ft., \$2.50 each;
one of each variety, \$4.75

New:

HARDY APRICOT TREES

From U. of M.

MOONGOLD—

Chubby light orange fruit sweet flavor. Good for eating, sauce and jam.

SUNGOLD—

Color is bright, clean gold—flavor mild and sweet. Good for eating, and jam. 5-6 ft., \$4.00; 2 for \$7.50.

RASPBERRIES

Raspberries are at their best in the north central states. Plant your own and forget about the expense and difficulty of buying them on the market. They may be set out in the spring or fall. The plants should be 3 feet apart in the row and at a distance of 5 feet between rows. Raspberries produce big yields and sure profits.

LATHAM—

Fruit is very large, dark red and firm. Delicious eaten fresh, in sauce, jam, pies or short-cake. It has the qualities that make it the leading red raspberry of the day. **No. 1 plants, 12 for \$2.75; 25 for \$4.75; 50 for \$8.75; 100 for \$15.75.**

CUMBERLAND (BLACK)—

This is the most popular of the black raspberries. Fruit is large, firm and of good quality. **Tips, 12 for \$2.75; 25 for \$4.75; 50 for \$8.75; 100 for \$15.75.**

DURHAM (NEW EVERBEARER)—

This wonderful garden berry produces fresh fruit for your table or for freezing, from early summer 'til frost! Bears big crops on the old canes, then in a few weeks new canes start to bear, continuing 'til frost. It's easy to pick loads of big beautiful red berries from the big 3 ft. canes. **No. 1 plants, 12 for \$2.75; 25 for \$4.75; 50 for \$8.75; 100 for \$15.75.**

Strawberries

Strawberries should always be planted in the spring, the earlier the better.

EVERBEARING

The everbearing varieties will bear the first season from August until hard freezing weather. Blossoms should be pinched off until the middle of July so plants may become established.

STREAMLINER—

The berries are large and a red color. Many think they are the sweetest of all Everbearers. It will bear this summer, starting 60 to 90 days after planting and continue until freezing. Next year it will produce a heavy spring crop and then besides you will get fruit during the summer and fall. **12 plants, \$1.25; 25, \$2.00; 50, \$3.00; 100, \$5.25.**

SUPERFECTION—

Deep red all the way through and sweet as sugar, the berries are very large and almost round in shape. Superfection begins producing fruit 90 days after planting first season and continues until hard freezing. **12 plants, \$1.25; 25, \$2.00; 50, \$3.00; 100, \$5.25.**

OGALLALA—

Developed by USDA in Wyoming and University of Nebraska, crossing wild Rocky Mt. strawberries with garden varieties to combine the rare aromatic flavor of wild strawberries, with the large size, heavy fruiting and everbearing habit of the best domestic varieties. Superb for freezing or preserves. Unmatched flavor. **12 plants, \$1.25; 25, \$2.00; 50, \$3.00; 100, \$5.25.**

JUNE BEARING

DUNLAP—

June bearing. Mid-season. An old favorite. One of the best known and most widely grown strawberries in the north and eastern half of the United States. **25 plants, \$1.25; 50, \$2.00; 100, \$3.00; 200, \$5.00.**

PREMIER—

Perhaps the most popular June bearer at the present time. Ripens very early, productive and hardy, also a fair to good plant maker. Berries bright red, fairly firm, of good quality. **25 plants, \$1.25; 50, \$2.00; 100, \$3.00; 200, \$5.00.**

MINNESOTA—

One of the outstanding varieties; ripening one to two weeks earlier than most June bearing varieties. Their uniform size and long bearing of fine flavor and excellent quality make them a big favorite. Very hardy. **25 plants, \$1.25; 50, \$2.00; 100, \$3.00.**

NEW TRUMPETER—

New U. of Minn. Late Fruiting Junebearer. Produces big, well-formed berries of intense red color that appeals on the market. Has exceptional qualities for freezing, home garden use or market growing. Plants are tall, sturdy, easy to pick and very hardy for northern gardens. **25 plants, \$1.25; 50, \$2.00; 100, \$3.00.**

CUTTING'S QUALITY STARTED PLANTS

For Your Vegetable Garden

NEW HYBRID TOMATO PLANTS—

In our tomato trial garden we find the hybrid varieties far superior to the standard kinds in quality, size and yield.

Bright red fruits, smooth, globular and free from cracks and blemishes. The walls are thick and interiors firm and meaty.
